SMART FUN FOR COOL KIDS

Kid Scoop News®

NOVEMBER 2026

THANK YOU, VETERANS!

Veterans Day is the day to say "Thank You!" to those who have served in our country's military. Find out more about this important day inside this issue of *Kid Scoop News!*

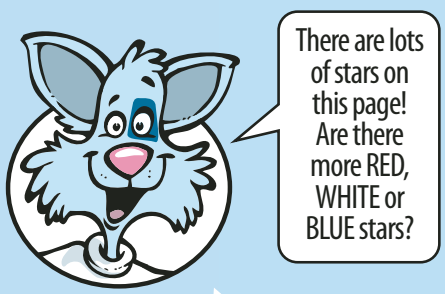

FALL LEAVES

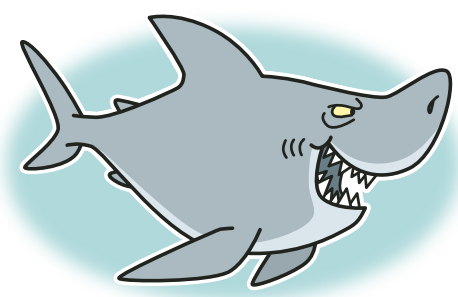

Red, yellow, orange, brown . . . fall leaves can be beautiful, but why do leaves change color in the fall? We've got the answer inside!

TURKEY DAY TOURNAMENT

Thanksgiving is a great time to challenge a family member to a little friendly competition. It's a great way to spend some quality family time at the holiday gathering!

ALL ABOUT SHARKS

Sharks come in all shapes and sizes and they have remarkable teeth. We will show you how to draw one, too!

WOODWORD'S CORNER

Dear Readers,

November is a special month. Nights are longer, the air is cooler, leaves are falling from the trees and there's nothing better than curling up with a copy of **Kid Scoop News** to read.

And, this month we bring you a surprising scoop — **Elephants in America!** How can that be? Read on to find out.

The **Thanksgiving** holiday brings the family together for food and fun. This month we give you some games and puzzles to play with your family!

Have you ever made a pile of fallen leaves and then jumped into the middle of them? Have you also stopped to consider why leaves are different colors? This month's **Kid Scoop News** gives you the scoop! Can you find the answer?

Let's not forget Veterans in November. **Veterans Day** is November 11. There will be parades in communities across America. If you know a veteran or the family of a veteran, tell them "THANK YOU FOR YOUR SERVICE!"

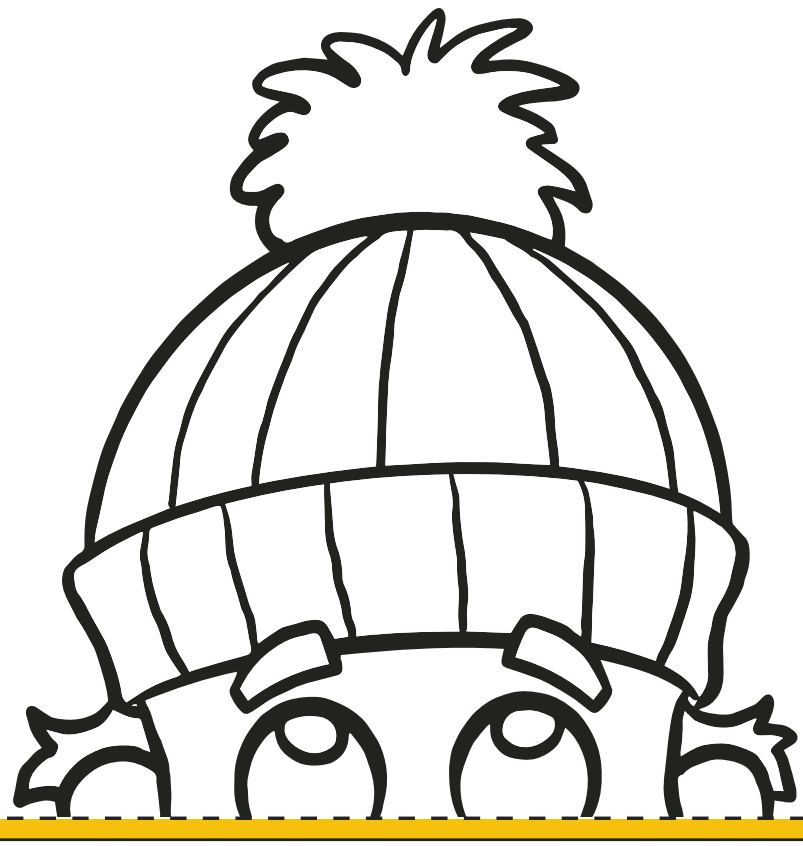

November is a time to be thankful. I thank YOU for being a **Kid Scoop News** reader!

Elephants in America?

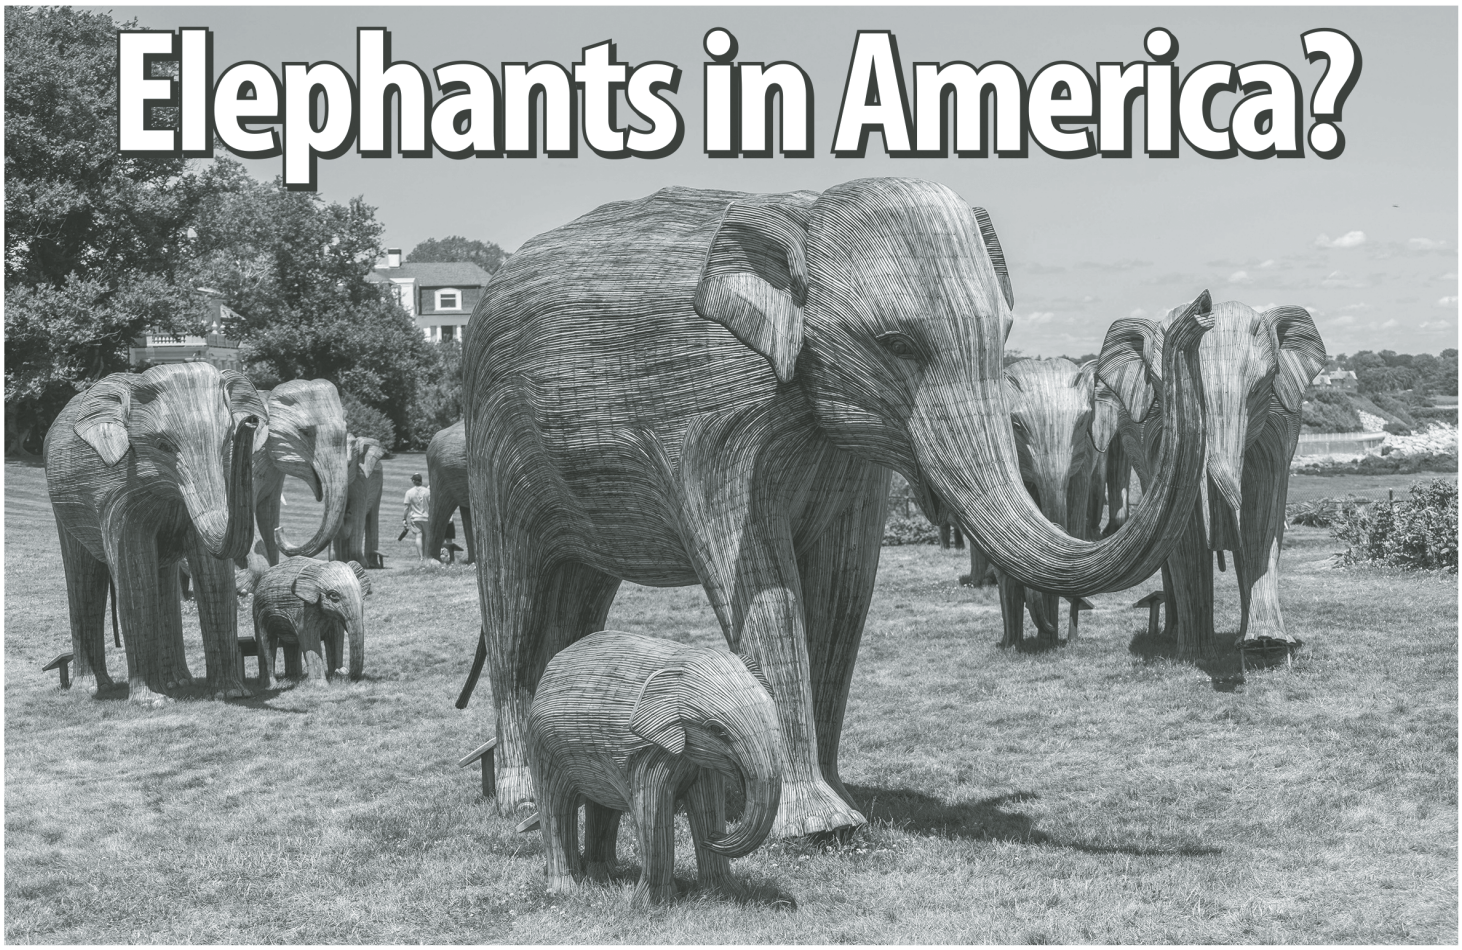

Photo: Jennifer Yakey-Ault / Shutterstock.com

On July 4, 2024, in Newport, Rhode Island, something unusual happened: A herd of 100 very interesting elephants showed up.

It looked like these elephants were walking along the tops of cliffs overlooking the ocean.

These weren't real, live elephants. They were life-sized elephant sculptures made from a weed called **lantana**.

A Growing Problem

The story of these elephants starts in India, where Asian elephants live in the wild.

The Asian elephants there are facing a big problem. A weed called lantana is taking over forests. When the lantana plant takes over, there is nothing left for the elephants to eat.

People living near these elephants wanted to help them.

A Creative Idea

Dr. Tarsh Thekaekarais came up with an idea to turn the nasty weed into something beautiful.

He worked with local artists to use the weed to make life-sized elephant sculptures. His project removes the lantana from the forest, too. Making the sculptures are good, well-paying jobs for people living in the area.

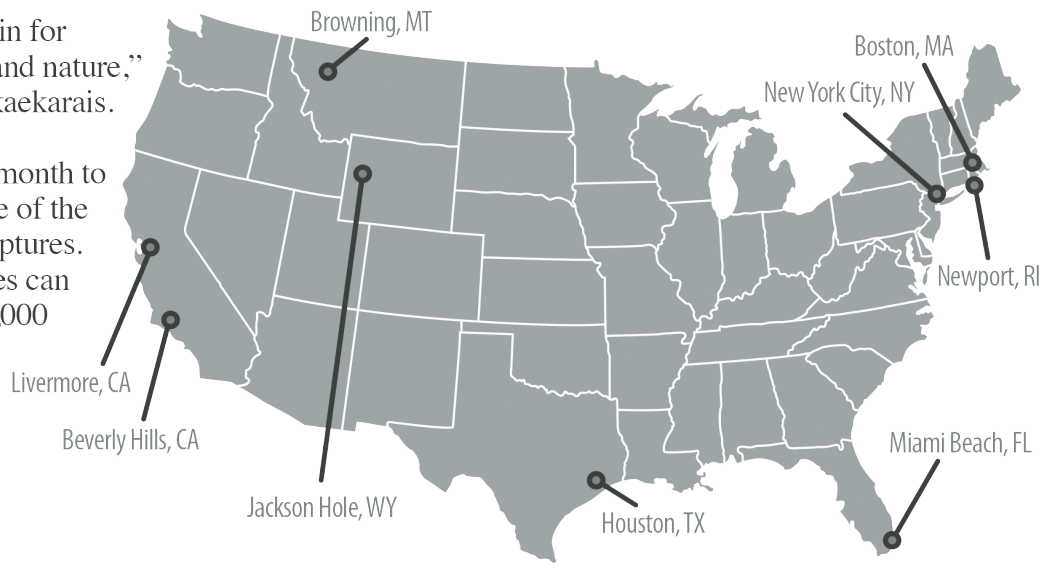

"It's a win-win for both people and nature," said Dr. Thekaekarais.

It can take a month to make just one of the elephant sculptures. The sculptures can cost from $8,000 to $22,000.

Back to America

One hundred of the lantana elephants started their trip, or **migration**, across the United States in Rhode Island. The elephants visited eight places. They ended their trip in Livermore, California, in October of 2026.

Look at the map to see all the places the elephants visited.

Turkey Day Tournament

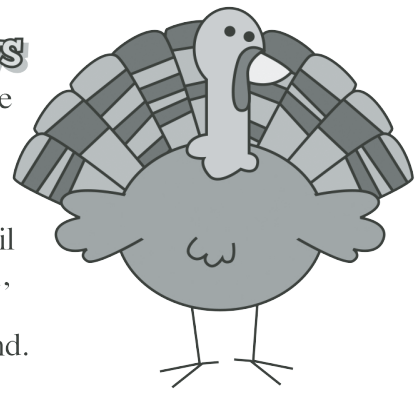

Challenge a friend or family member to these puzzles and brain twisters.

TALLY THE SCORE! PLAYER A: PLAYER B:

Tricky Turkeys

Player A points out one difference between these two turkeys. Then Player B takes a turn. Keep going until you've found them all, scoring 1 POINT for every difference you find.

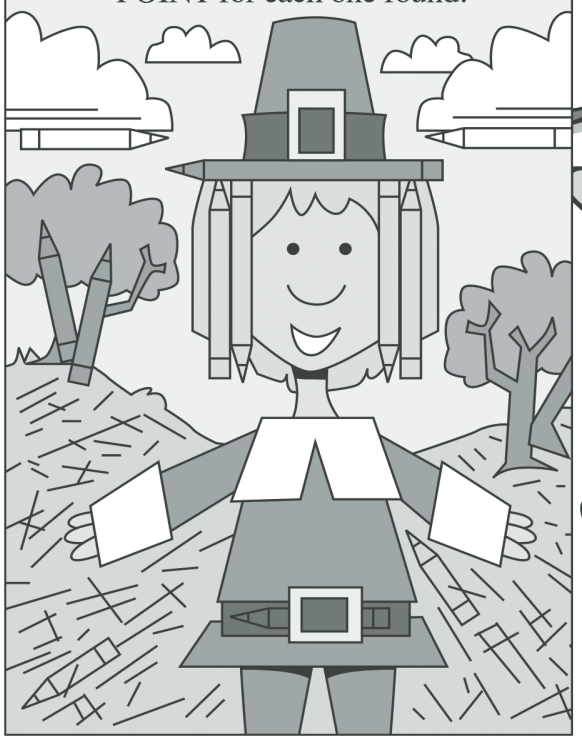

Cut out the above squares. The player who assembles their puzzle first wins 10 points.

Pilgrim Pencils

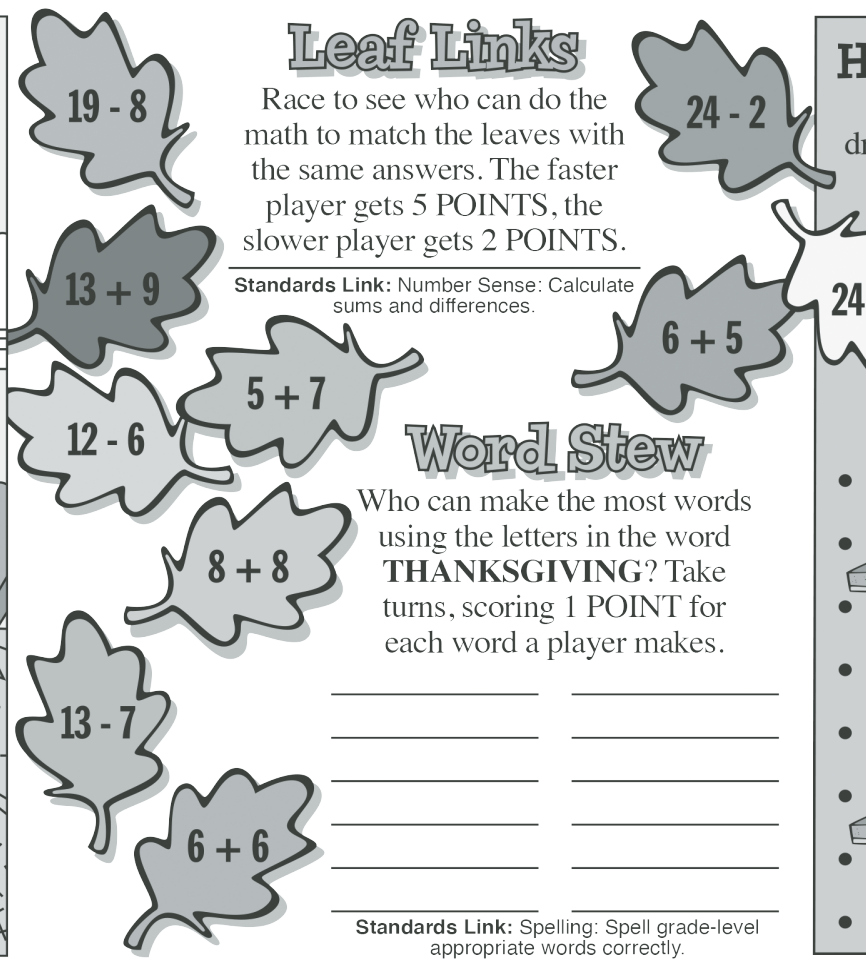

There are 12 pencils hidden in this picture. Each player has 60 seconds to find as many as they can. Score 1 POINT for each one found.

Leaf Links

Race to see who can do the math to match the leaves with the same answers. The faster player gets 5 POINTS, the slower player gets 2 POINTS.

Standards Link: Number Sense: Calculate sums and differences.

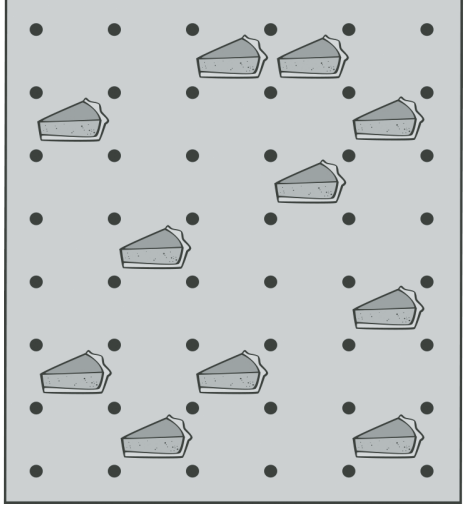

Word Stew

Who can make the most words using the letters in the word **THANKSGIVING**? Take turns, scoring 1 POINT for each word a player makes.

Standards Link: Spelling: Spell grade-level appropriate words correctly.

Hey, Dot's MY Pie!

Get two crayons. Take turns drawing a horizontal or vertical line between two dots. The player who draws the line that completes each square gets 1 POINT. If there is pumpkin pie in that square, the player earns 3 BONUS POINTS.

Funny Filler

Pass the giggles! Ask a friend or family member to give you four nouns, four plural nouns, one verb and four adjectives. Then, fill in the blanks below and read the silly story aloud. Let the laughter begin!

Ted Turkey

Ted Turkey decided to _____ (VERB) to the island of _____ (ADJECTIVE) _____ (NOUN) during Thanksgiving vacation. But, being a turkey, he couldn't just buy an airline ticket. So, Ted made a boat using a _____ (NOUN) , a _____ (NOUN) and a _____ (NOUN) .

Ted set sail. But soon he was in rough _____ (PLURAL NOUN) and had to head back to shore. His boat was very _____ (ADJECTIVE) and Ted didn't dare try to sail it again.

Luckily, a _____ (ADJECTIVE) flock of _____ (PLURAL NOUN) landed on the beach. They offered to give Ted a lift to the island. Ted was thankful, and arrived on the island feeling very _____ (ADJECTIVE) .

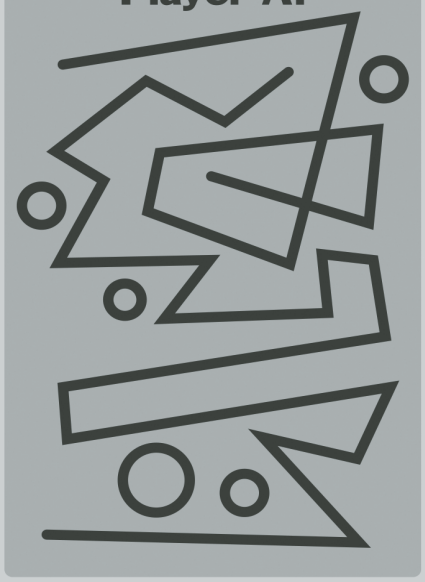

Ted still lives there to this day, in a hut made of _____ (PLURAL NOUN) and _____ (PLURAL NOUN) .

Standards Link: Grammar: Use nouns, adjectives and verbs correctly in writing and speaking.

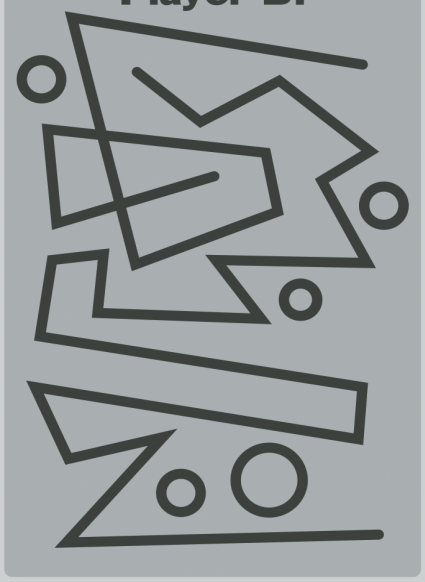

Kid Scoop® Puzzler

Drumstick Draw! Race to see who can draw their shape on another sheet of paper the fastest. The winner gets 3 POINTS.

SECONDHAND SMOKE

Would you like some gum that somebody else has already chewed? That would be secondhand gum!

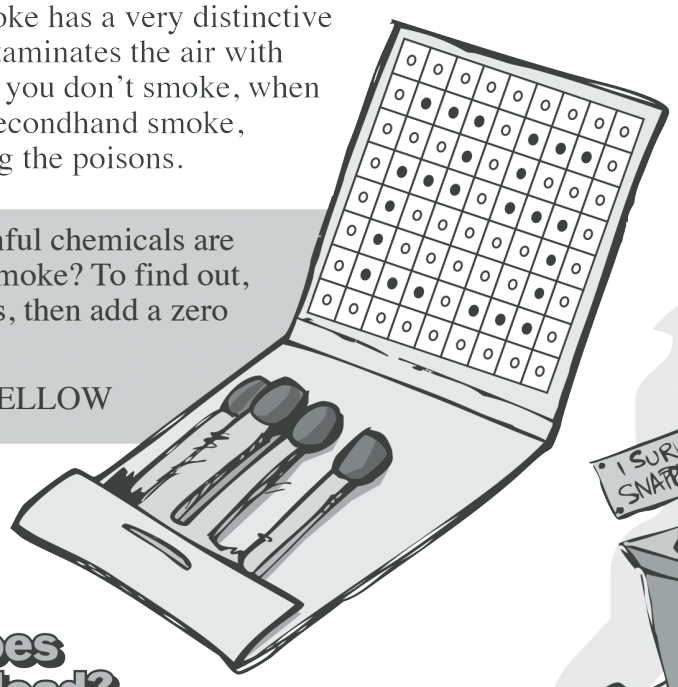

Secondhand smoke is a combination of the smoke from a burning cigarette and the smoke exhaled by a smoker.

Secondhand smoke has a very distinctive smell and it contaminates the air with poisons. Even if you don't smoke, when you breathe in secondhand smoke, you are breathing the poisons.

How many harmful chemicals are in secondhand smoke? To find out, color the squares, then add a zero to the number.

● RED ○ YELLOW

Where does smoking lead?

Secondhand smoke is deadly. Because of that, many states prohibit smoking in public places like restaurants, schools, libraries, stores, etc.

So where do people who smoke end up?

No smoking at the library.

The movies? Forget it.

You can't smoke here.

Stores forbid smoking.

Messed Up!

Secondhand smoke has chemicals that are poisonous, and causes more than 3,000 deaths in non-smokers every year.

Children who are exposed to secondhand smoke are more likely to have:

- Asthma
- More colds and sore throats
- Bronchitis and pneumonia
- Ear infections
- Behavior problems
- Hyperactivity problems

Standards Link: Health: Students develop knowledge for choosing not to use harmful chemical substances.

The Dirty Dozen

Yuk! Snappy Pappy's Pizza Parlor is a disgusting mess! Can you find 12 dirty, harmful things in the picture?

Deadly Trash

Each year, millions of cigarette butts end up being washed down storm drains and into streams, rivers, lakes and the ocean. Seabirds, fish and other animals mistake them for food. Their bodies have no way to digest cigarette butts and they can die.

It takes about 2-5 years for one cigarette butt to decompose, so it sits like a poison that an unsuspecting animal could eat.

In the United States alone, all of the cigarette butts thrown away in one year weigh about the same as 177,895 of these:

WHY DO LEAVES CHANGE COLOR IN THE FALL?

Many plants stop making food in the fall. When they stop making food, the green color in their leaves starts to disappear.

Plants make their own food using these ingredients:

- ✔ **water**
- ✔ **gas**
- ✔ **sunlight**

Trees take water from the ground through their roots. They take a gas called ***carbon dioxide*** from the air. They use the sunlight and something called ***chlorophyll*** (clor-oh-fill) to turn water and carbon dioxide into food. Chlorophyll is green. It gives leaves their green color.

Funny You Should Ask!

When the rain comes down, what goes up?

Find the answer in the fall leaf border! Start with the letter in the triangle. Then read every other letter as you move along the border.

Standards Link: Reading Comprehension: Follow simple written directions.

When winter days get short and there is less sunlight, the leaf makes less chlorophyll. Then we can see orange and yellow colors. These colors were in the leaves all summer, but the green covered them up.

Red leaves are another story. This color is made in the fall, from food trapped in the leaves.

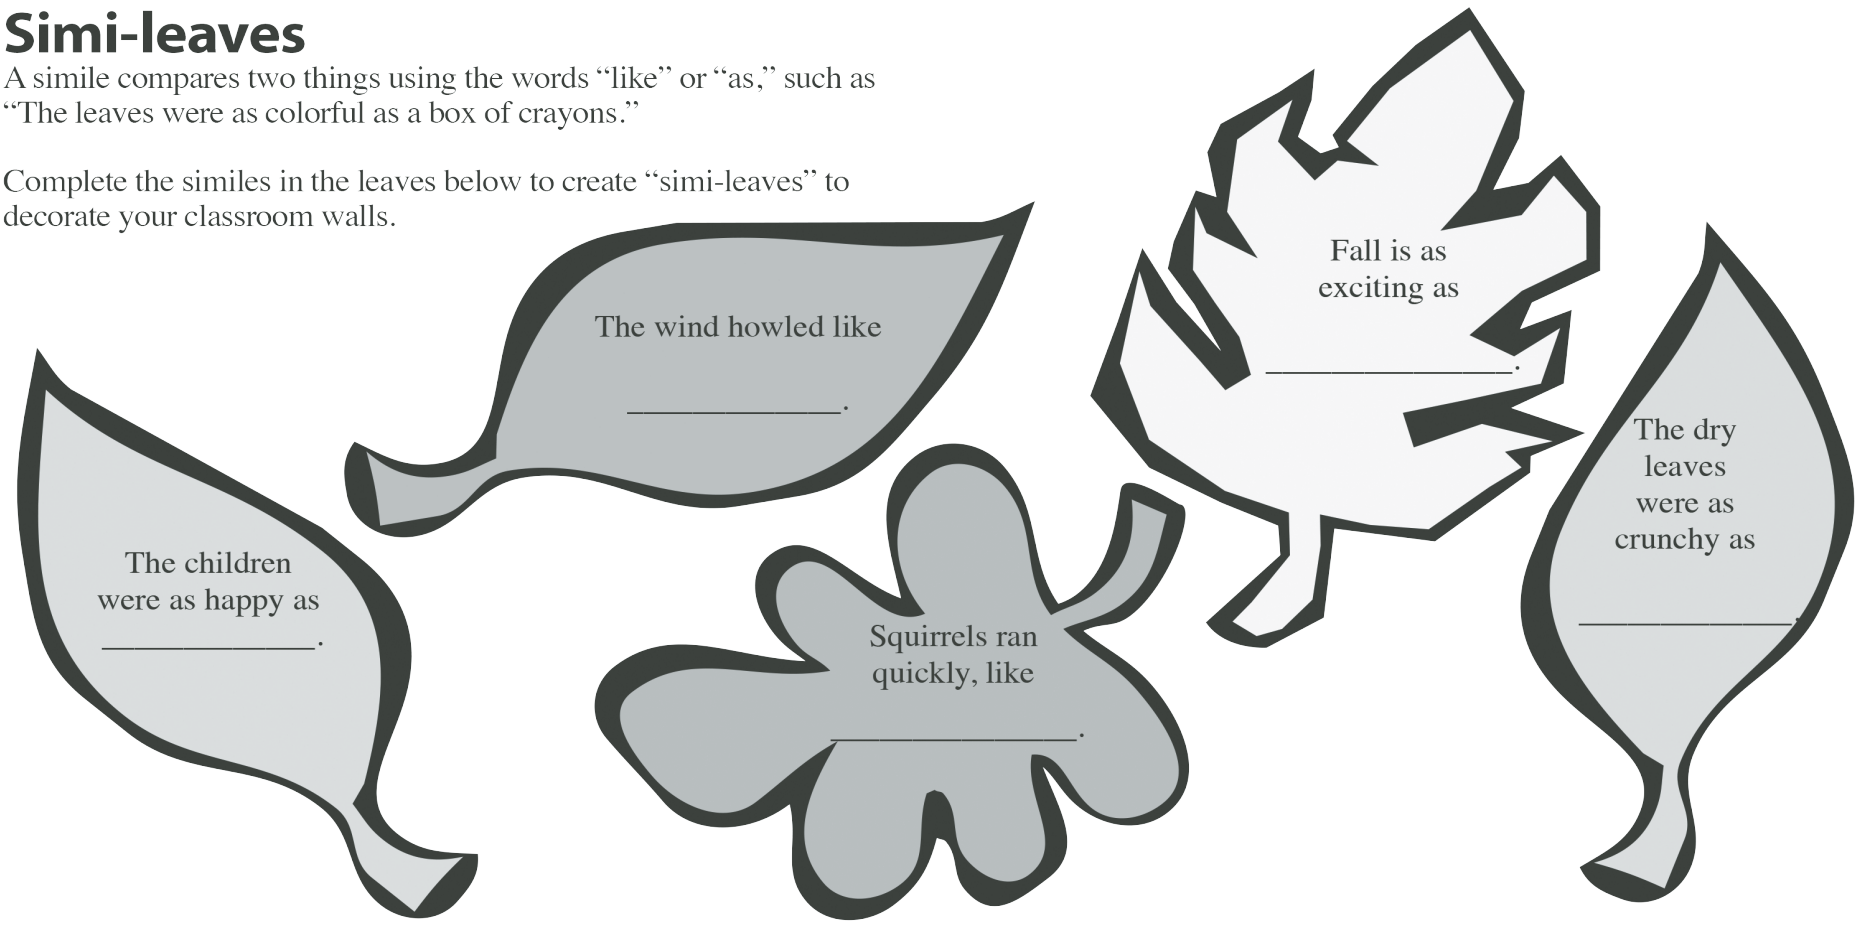

Standards Link: Life Science: Plants have structures that serve different functions in survival; plants use carbon dioxide and energy from sunlight to build sugar and release oxygen.

AERODYNAMICS IN **FOOTBALL**

The quarterback takes the snap and gets ready to throw the **prolate spheroid** to the open receiver downfield and …

Wait. What?

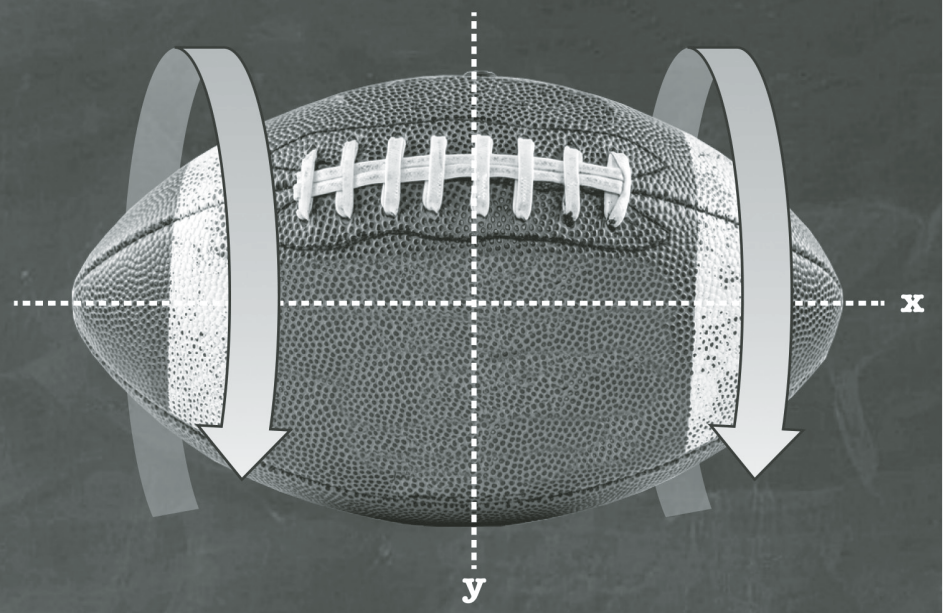

That strange football shape is called called a **prolate spheroid**. That shape lets football players put a spin on the ball when they throw it or kick it. This spin creates air flow over the ball while it travels. That matters because **gravity** is always trying to pull the ball down to the ground.

HEY, GRAVITY! JUST WHOSE SIDE ARE YOU ON, ANYWAY?

SPIN TO WIN

When the football spins around the x-axis - or horizontal axis - it keeps the ball on its intended path.

This spinning around the x-axis is called a gyroscopic effect.

FUEL FOR THOUGHT

NEED A LIFT?

The word **aerodynamics** comes from two Greek words:

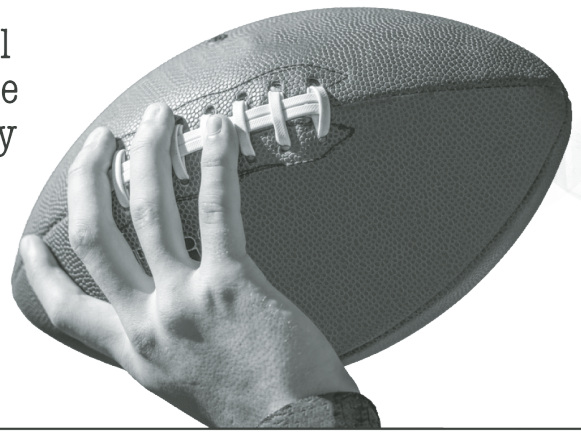

AEROS
(meaning 'of the air')
and
DYNAMIS
(power, strength, force)

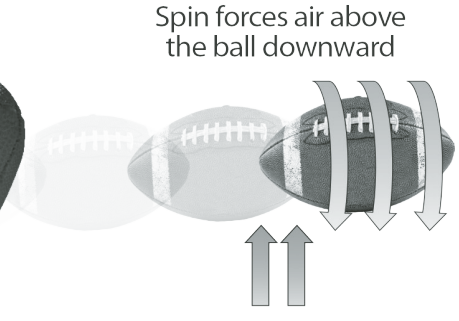

Scientists use aerodynamics to make things go fast and far — like cars, jet planes and footballs.

The weight of an object makes it harder to lift. But knowing about aerodynamics keeps a 300,000 pound plane in the air!

GET A GRIP!

Quarterbacks grip the ball in different ways to create spin. And spin is how they get more lift on the ball. Air traveling above the ball is forced downward by the spin and the air below creates lift.

SHARKS!

Which scares you more? A shark or a bee?

Most people are more afraid of sharks than bees. Yet bee stings have killed more people than sharks! Most of the more than 300 different kinds of sharks are not dangerous. The Great White shark is the most dangerous of all, but hardly anyone sees it. It likes to stay in deep ocean water where most people don't swim.

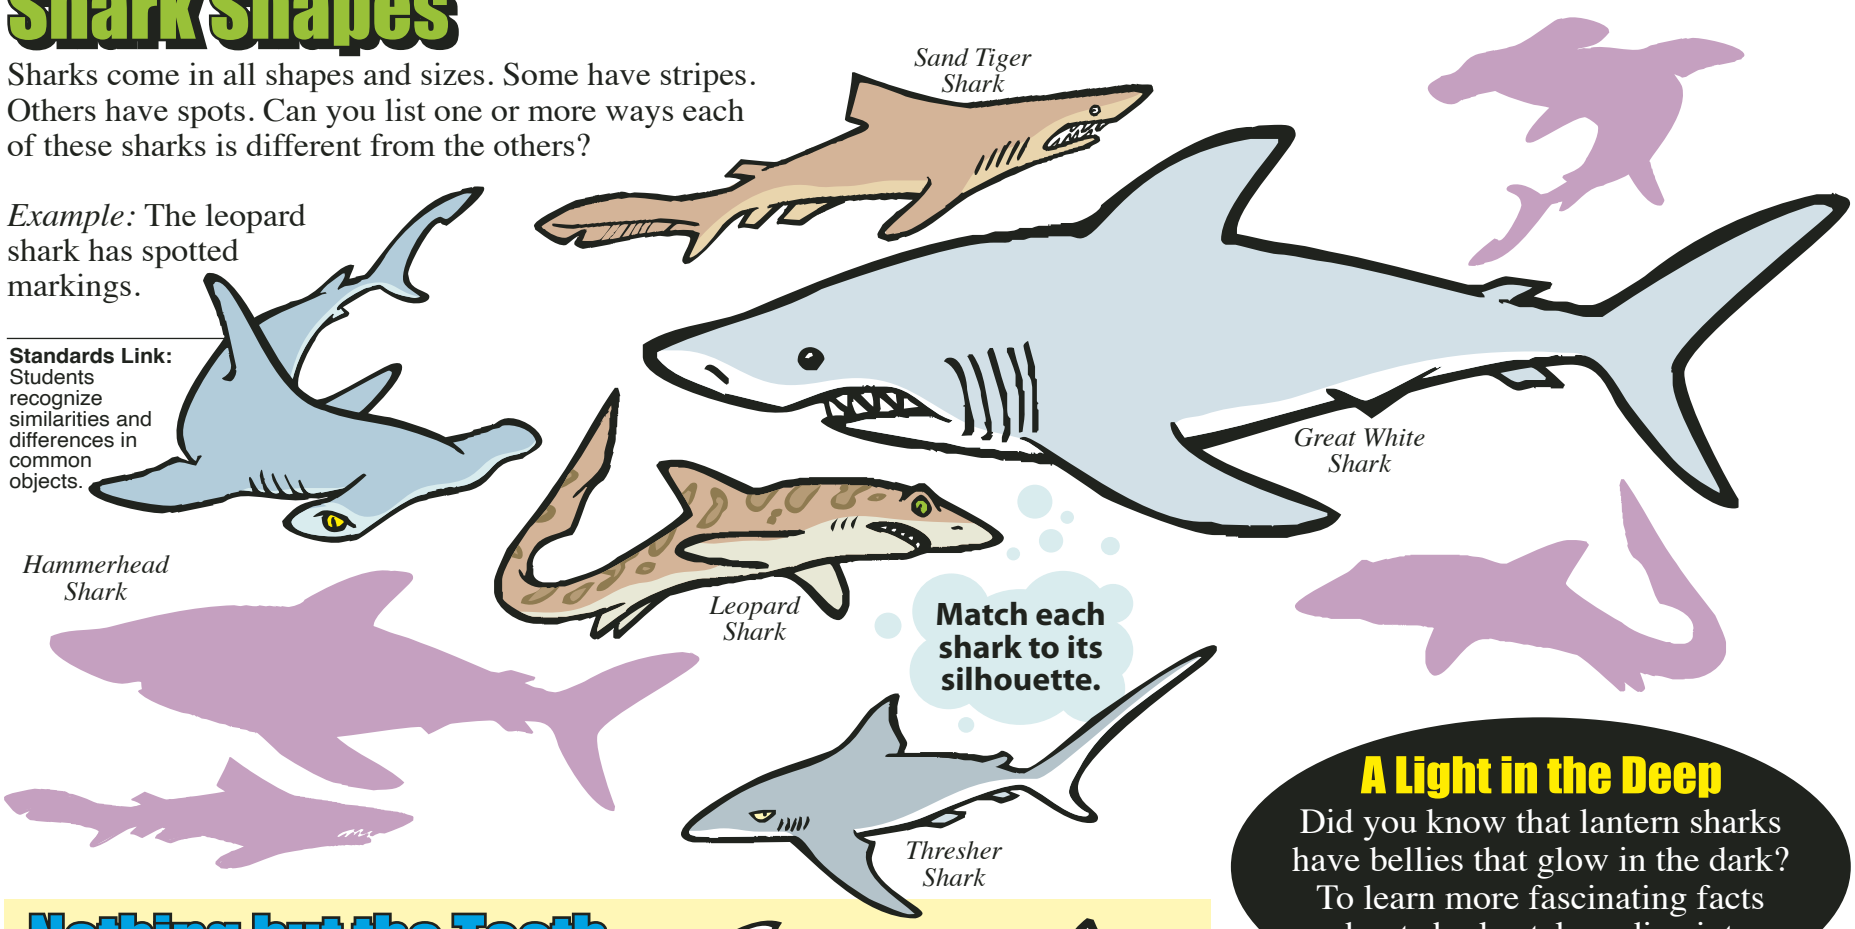

Standards Link: Life Science: Students understand that animals have different external features that help them survive in different habitats.

Shark Shapes

Sharks come in all shapes and sizes. Some have stripes. Others have spots. Can you list one or more ways each of these sharks is different from the others?

Example: The leopard shark has spotted markings.

Standards Link: Students recognize similarities and differences in common objects.

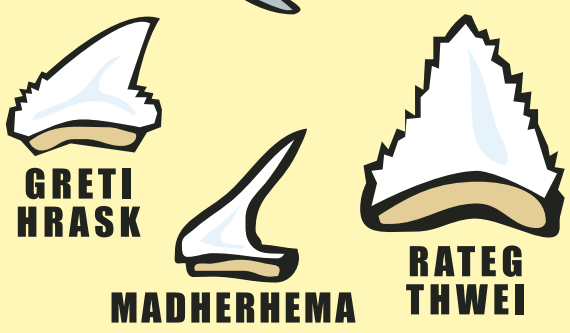

Match each shark to its silhouette.

Nothing but the Tooth

No two kinds of sharks have the same kind of teeth. Scientists can tell what kind of shark a tooth came from just by the way it looks.

To find out what type of shark each tooth came from, unscramble the words.

Standards Link: Life Science: Animals have features that help them survive in different environments.

A Light in the Deep

Did you know that lantern sharks have bellies that glow in the dark? To learn more fascinating facts about sharks, take a dive into your local library!

VETERANS DAY

What is Veterans Day?

by I.M. Curious

Veterans Day, November 11, is a day to honor people who have served in the military during a war or in times of peace. To observe the day, thousands of veterans will march in parades in communities across America.

You may have a veteran in your family. Ask your parents or grandparents which family members have served in the military during a war. Ask those relatives questions. Get facts about their lives and write a news story.

Penta[illegible]icials will [illegible]ul for their service to

The Parade Shapes Up

Find and count all the triangles, squares, circles and rectangles you can find in the kids' parade.

Super Stars

It's a tradition to display blue and gold stars in the homes of families of veterans. A blue star means the veteran in the family is living. A gold star means the veteran died.

Before 1954, Veterans Day was called Armistice Day. The first Armistice Day, November 11, 1918, marked the signing of the peace treaty that ended World War I. (An *armistice* is an agreement to stop fighting, and it's made just before the signing of a peace treaty.)

More soldiers had died in World War I than in any other war in history. An Australian journalist named George Honey started a practice that became a tradition. He asked people to observe two minutes of silence at 11:00 a.m. as the treaty was signed, to remember the many fallen soldiers.

In 1954, President Eisenhower signed a law changing the name of Armistice Day to Veterans Day, thereby extending the tribute to veterans of all wars.

The **best** title for this story would be:

- ☐ Peace Treaties
- ☐ How Veterans Day Began
- ☐ All About President Eisenhower

Standards Link: History: Students understand the reasons Americans observe certain national holidays.

"At the Crossroads of the Slope and Gateway to Heart Butte Dam"
The Glen Ullin Times

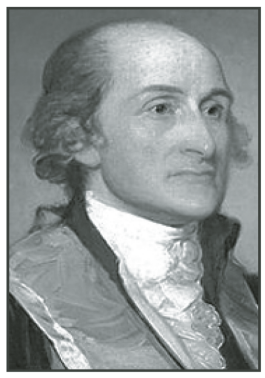

EMMONS COUNTY RECORD

Who were the Founding Fathers?

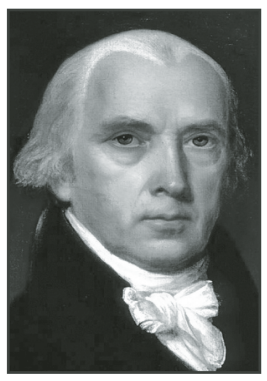

The Founding Fathers signed the Constitution of the United States into law in 1787. They were a group of men who organized the American colonists' revolution and formed an independent country—the United States of America.

They knew that after they won the war with England, they would need a Constitution to create laws for the new country. The men who led the revolution, worked on the Declaration of Independence and wrote the Constitution are known as the Founding Fathers.

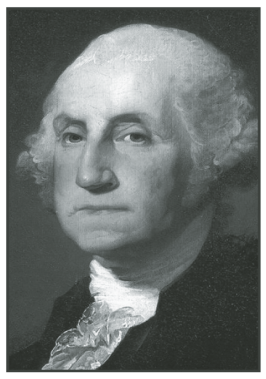

Seven of those men are considered key figures and students today study their lives and writings.

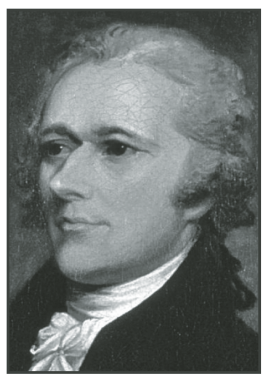

4 John Jay

13

7

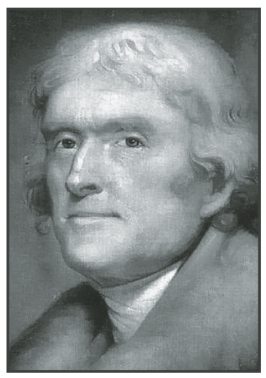

18

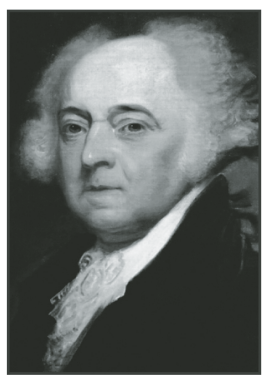

Do the math to label each Founding Father pictured.

17 + 17	=	Thomas Jefferson	24 - 7	=	Benjamin Franklin
13 -9	=	John Jay	13 + 5	=	Alexander Hamilton
14 - 7	=	George Washington	19 - 6	=	James Madison
16 + 12	=	John Adams			

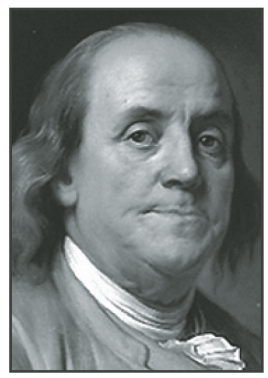

Thomas Jefferson was 33 years old when he wrote the Declaration of Independence; he was not part of the Constitutional Convention, as he was the minister to France at the time. Four years after the Constitution was written, he insisted that Ten Amendments be written up as The Bill of Rights to protect an individual's rights as a citizen.

Heroic Homonyms

Benjamin Franklin used these words urging his fellow signers to be of the same mind. "We must all hang together, or assuredly we shall all hang separately." This reveals two meanings of the word "hang"— *to stay together* and *to be killed by a rope tied around the neck*. Many homonyms have at least two different meanings. Write down another meaning for each word other than the one given.

BANK: The edge of a river or _____

BAT: A small flying animal or _____

LIGHT: Weighing very little or _____

RING: A sound made by a bell or _____

Trunk Truths

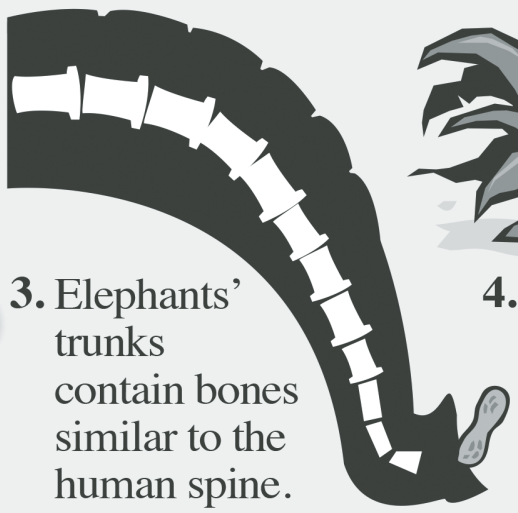

One of these statements is false. Which one?

1. The first elephants appeared about 60 million years ago. One early relative, called Moeritherium (meer-uh-THEER-ee-um), was only about 2 feet (0.6 m) tall and had no trunk.

2. Asian elephants have one small "finger" at the end of their trunks for grasping. African elephants have two "fingers."

3. Elephants' trunks contain bones similar to the human spine.

4. There are more than 100,000 muscles in the trunk, making it very flexible, and strong enough to lift whole trees.

ANSWER: #3 is false. There are no bones in an elephant's trunk.

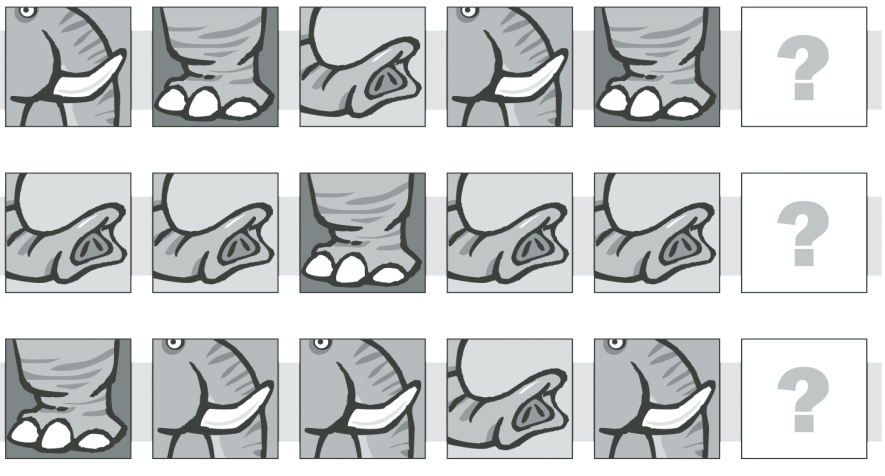

Standards Link: Life Science: Animals have different structures to help them survive.

Fritter wants: Speedstar Raceway Cost: $130

You want: _____ Cost: _____

2. Watch Your Spending

Write down everything you spend money on. After a week or so, add up what you spent. Is there anything you could do without? How much would that save you?

What I Spent This Week
Fritter

Movie Ticket	$9.00
Large Popcorn	$5.50
4 Sodas	$12.00
3 Candy Bars	$6.75
Comic Book	$2.25

What I Spent This Week

_____

How much money did Fritter spend this week?

What things would you suggest Fritter do without to save for the race track?

How much money would he save by not buying those things?

Work with a parent to add up the value of the coins on this page!

HARVEST OF THE MONTH

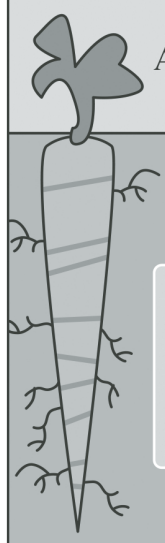

CARROTS

Did you know...

- In the past our leaves were used to decorate the hats of **25**.
- We were one of the **22** vegetables grown by humans.
- We're related to **21**. Don't our feathery green tops look similar?
- Doctors say that we improve **24** because of our very high level of vitamin A (carotene).

Root Vegetables

A carrot is a root vegetable. That means it grows underground and is part of the root of its plant.

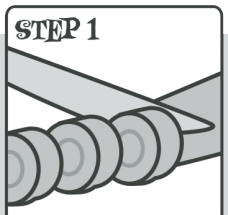

Cross out the word **CARROT** each time it appears in this box. Write down the remaining letters to discover some other root vegetables.

CARROTPCARROTOCARROTTA
TCARROTOCARROTTUCARROTR
CARROTNICARROTPCARROTRA
DCARROTISCARROTHCARROTB
CARROTEECARROTTCARROTS

Create a Scarrot!

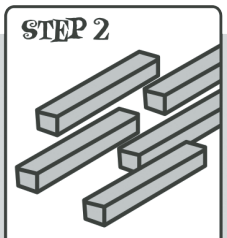

Use carrots, fruits, vegetables and imagination to make creepy treats!

STEP 1

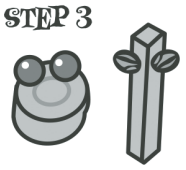

Carefully slice one carrot into round, coin-like shapes.

STEP 2

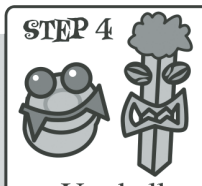

Slice another carrot into sticks.

STEP 3

Use raisins, berries or olive slices for eyes and peanut butter for glue.

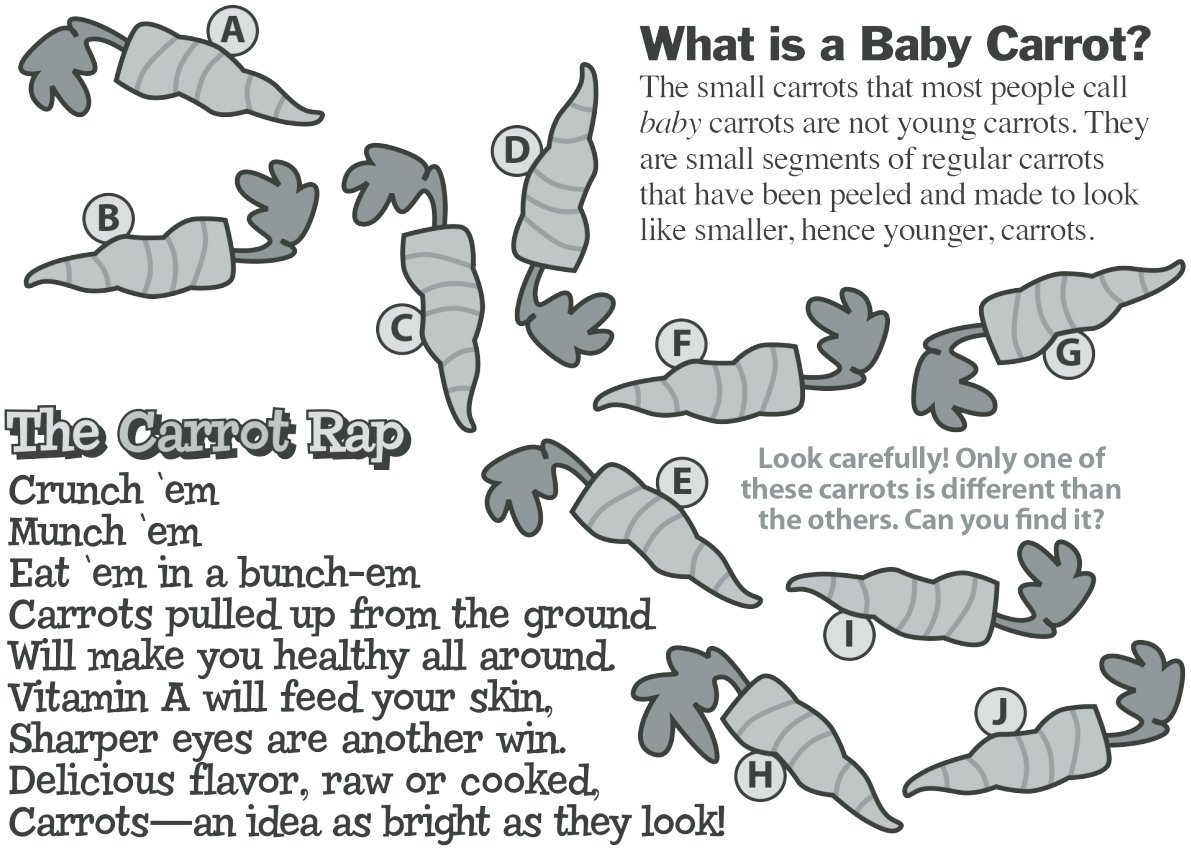

STEP 4

Use bell pepper slices to make fangs and broccoli for hair.

What is a Baby Carrot?

The small carrots that most people call *baby* carrots are not young carrots. They are small segments of regular carrots that have been peeled and made to look like smaller, hence younger, carrots.

Look carefully! Only one of these carrots is different than the others. Can you find it?

The Carrot Rap

Crunch 'em
Munch 'em
Eat 'em in a bunch-em
Carrots pulled up from the ground
Will make you healthy all around.
Vitamin A will feed your skin,
Sharper eyes are another win.
Delicious flavor, raw or cooked,
Carrots—an idea as bright as they look!

Fresh or Processed

Some food comes to us straight from the farm. These are known as fresh foods. Processed foods go to factories before the store. The food gets frozen, canned, cooked into meals or even dried.

WHOLE FOOD	PROCESSED FOOD
Apple	Fruit roll-up
Baked Potato	Potato Chips
Grilled Chicken Breast	Chicken Nuggets
Fresh Carrot	Canned Carrots

Look at the chart showing the fresh and processed foods. Can you add two or more fresh foods and then show how they are sold after being processed?

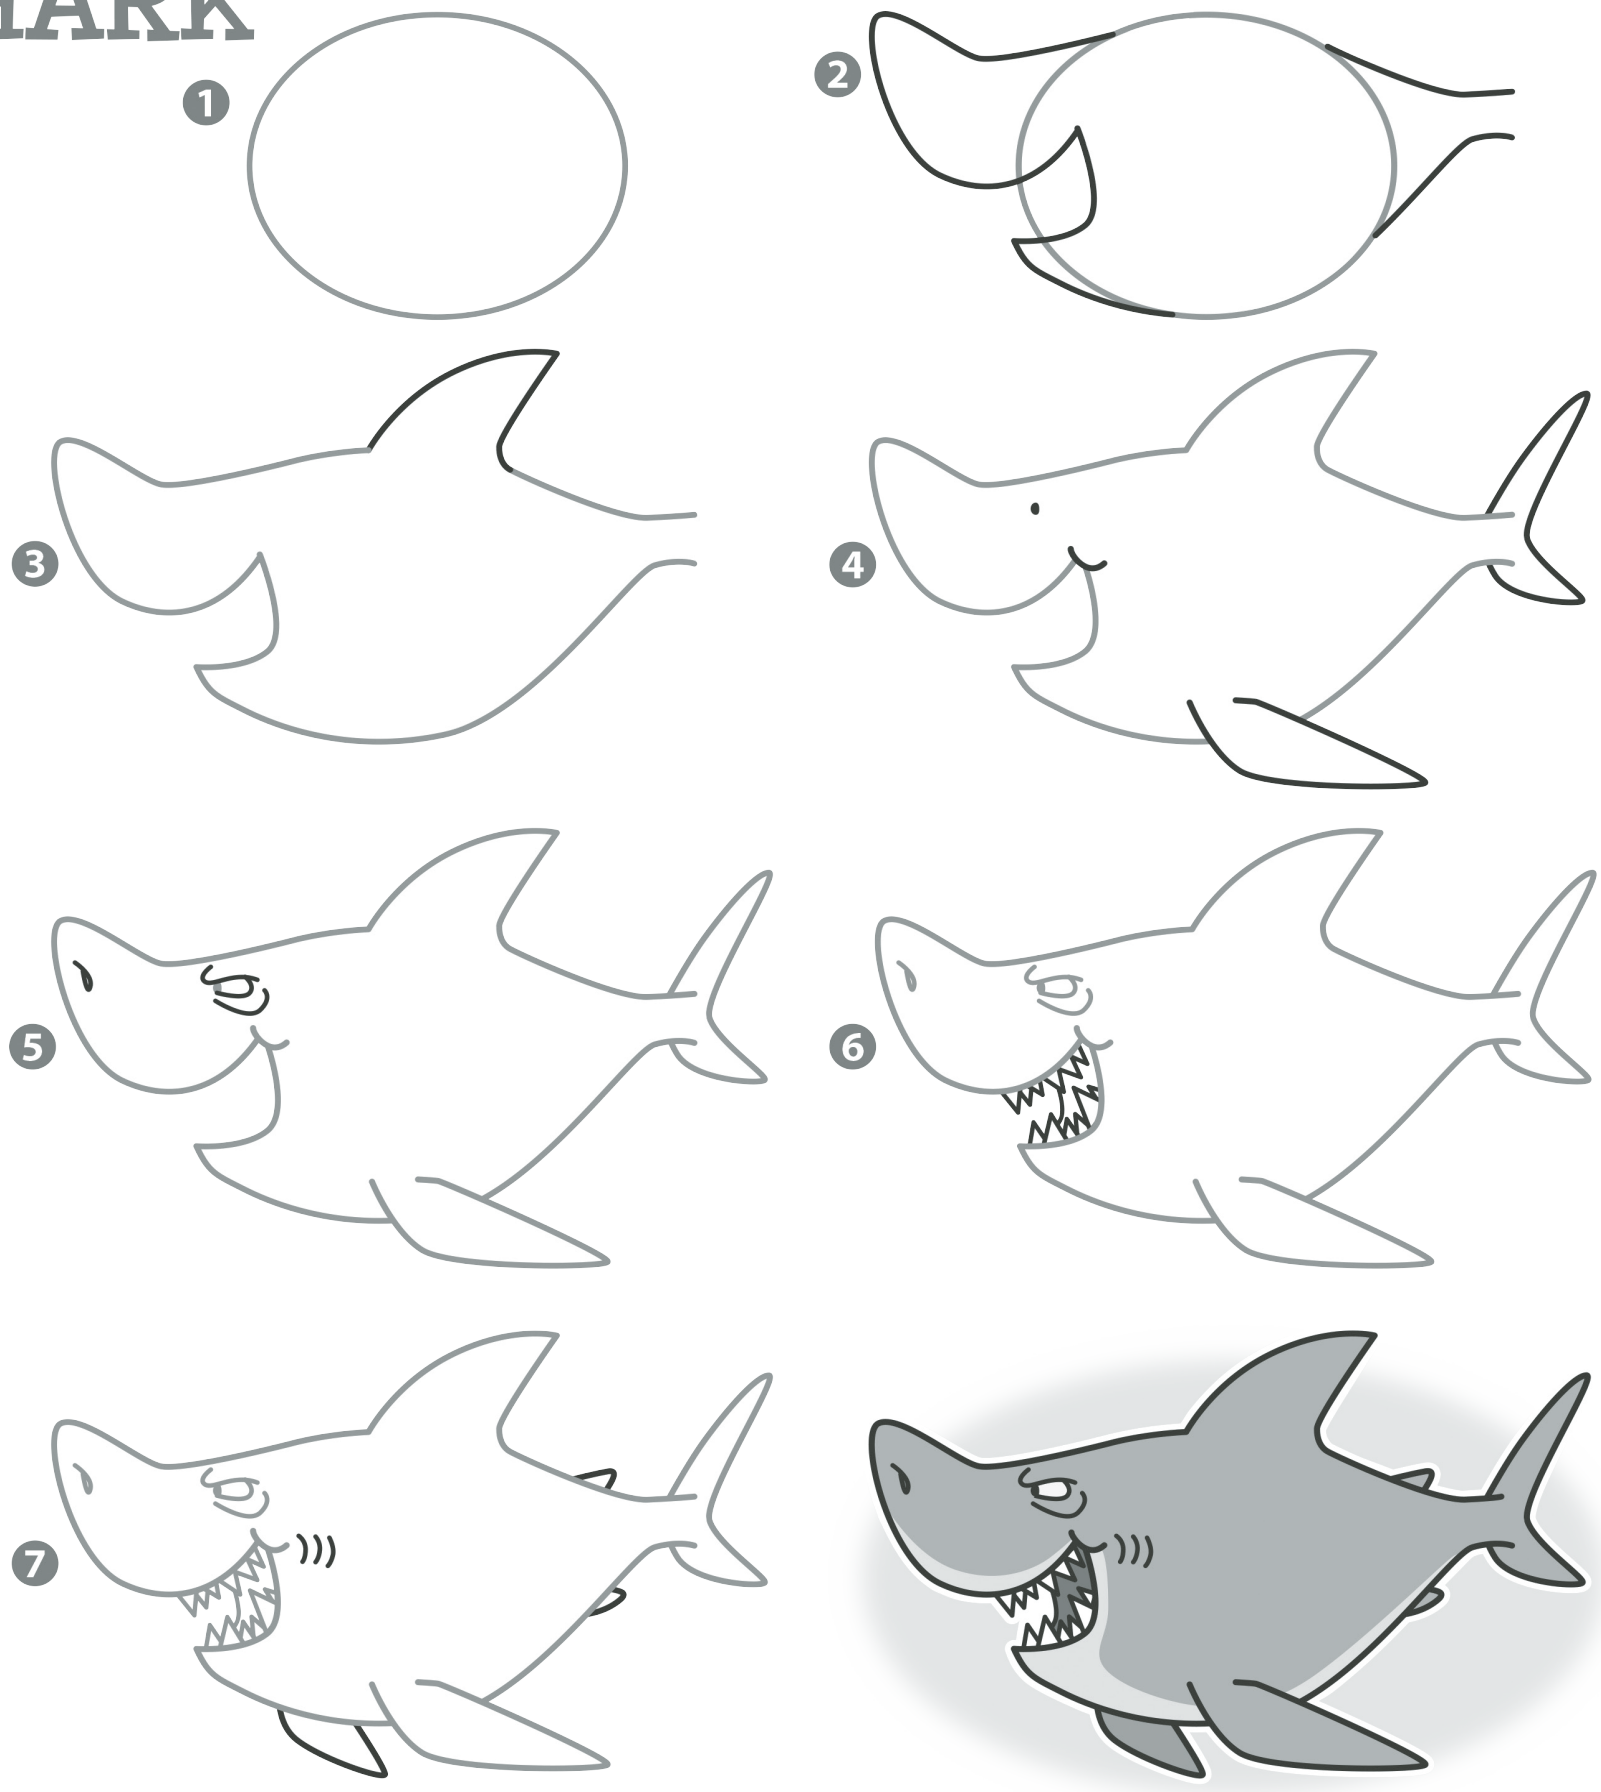

This can help make food last, but it isn't always the healthiest way to eat. Eating fresh, whole foods helps us be our best at everything we do and keeps us healthy far into the future.

Eating real food is also good for the earth. Foods that are unprocessed consume less energy as they go from farm to market than foods that take a side trip to be sliced, diced and rearranged in factories.

Smart Tips for Smart Parents

LEARNING TIP OF THE MONTH

Half Empty or Half Full?

Some people hate rainy weather. They complain about it and grumble beneath their umbrella. But other people enjoy the rain, knowing it provides fresh water, wildflowers in the spring and fills rivers and lakes. It's all a matter of one's **attitude**.

Attitudes are part of mental health. Take time to flip through a newspaper with your child and use the time to not only foster reading skills but also as an opportunity to start a discussion about attitudes.

THE HAPPY VALLEY HERALD

Berry Festival success: Over 30,000 visitors attend

MIDVALE: The annual Berry Festival saw record attendance over the weekend. Hotels and local restaurants did brisk business, increasing sales 23% higher than last year, on average. Rain didn't dampen spirits ...anizers provided plenty of awnings to

The Cranky Chronicle

Festival causes traffic mess

MIDVALE: Call it a strawberry jam. Crowds heading to the annual Berry Festival wound up in massive traffic jams all weekend. Rain only made the traffic worse, causing many out-of-town visitors to head for home. And hotels were completely booked, forcing some ...tors to drive miles away in search of places

Look through the newspaper to find examples of **optimistic** statements and **pessimistic** statements. Circle optimistic statements in green and pessimistic statements in red.

Ask your child to try turning one of the pessimistic statements into a positive one. Have them turn an optimisitic statement into a negative one.

Which was easier to do? It sometimes takes a lot of practice, and often a whole new attitude, to stay optimistic!

Making Hand Washing Fun

With the cold and flu season here, it is very important to talk with kids about why washing their hands matters. But they probably think that it's BORING. To make it more fun, learn the **Kid Scoop Scrub Squad Sing-a-Long Song!**

www.kidscoop.com/scrub-squad

Experts say that washing your hands for at least 20 seconds is the best way to make sure you remove germs and gunk. Help your kids memorize and sing one of the online Scrub Squad songs while you scrub to help you make sure that you wash long enough.

SUDSY STUDY: A comprehensive study by the University of Oregon revealed that ordinary bar soap is just as effective as antibacterial soaps in helping reduce instances of illness.

The way a movie vampire covers his face with his cape is a good way to stop the spread of germs. Teach your children how to do "The Vampire Cough."

Next time you need to cough or sneeze, cough into the inside of your elbow as shown.

If you cough into your hand, you'll spread germs as you touch things. Think about it: When was the last time you used the inside of your elbow to touch something?

EDITOR'S PICK by Vicki Whiting, *Kid Scoop News*

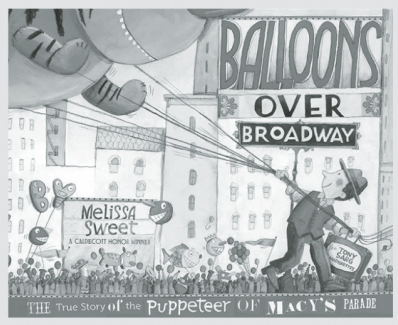

Balloons Over Broadway:

The True Story of the Puppeteer of Macy's Parade

By Melissa Sweet

Everyone is a New Yorker on Thanksgiving Day, when young and old rise early to see what giant new balloons will fill the skies for Macy's Thanksgiving Day Parade. Who first invented these "upside-down puppets"?

In Melissa Sweet's award-winning book, readers meet Tony Sarg, puppeteer extraordinaire! In brilliant collage illustrations, the award-winning artist Melissa Sweet tells the story of the puppeteer Tony Sarg, capturing his genius, his dedication, his zest for play, and his long-lasting gift to America—the inspired helium balloons that would become the trademark of Macy's Parade.

This is a great book the whole family will enjoy, perfect to read before watching the big parade.

What's hiding in the hole?

Connect the dots to find out. Then, color the picture.

ANSWER: It's a hog!

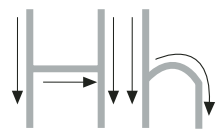

My Rhyme Time

The woodpecker pecked out
A little round hole,
And made him a house
In the telephone pole.

My Letters

H is for **Hole**

h is for **hole**

Learning Buddies: Read the two phrases aloud. Have your child read with you. Trace the uppercase and lowercase letter **H**. Say the letter as you trace it.

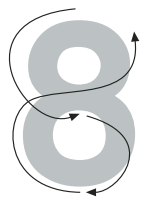

How many words or pictures can you find on this page that start with the **H** sound like the word **hole**?

My Numbers

How many  ?
hats

How many  ?
holes

How many  ?
hooks

Learning Buddies: Trace and say the number. Read the questions. Touch and count to find the answers.

My Sentence

Learning Buddies: Read the first part of the sentence aloud. Ask your child to think of a way to finish the sentence. Write your child's words in the lines. Read the entire sentence to your child while pointing out that reading is done from left to right. Older children may want to trace all or some of the letters in the sentence.

In the hole is a

Sunday

Letter Identification

With your child, look through the newspaper to find pictures of things that begin with the same sound as the letter **H** in **hole**.

Monday

Math Play

Point to the number **8** in the newspaper. Have your child say the number and, if it's large enough, have your child trace the number.

Tuesday

Match Game

With your child, find and circle six uppercase **H**s on one sheet of the newspaper. On the same sheet of newspaper, find and circle six lowercase **h**s. Have your child connect the "dots" to make a silly picture.

Wednesday

H is for Hand

Have your child trace his/her hand on a sheet of newspaper. Next, have your child circle all of the **H**s that are inside the hand.

Thursday

My Name Dot-to-Dot

Have your child find and circle the letters that spell his/her name on one newspaper page. Connect the letters with lines in the correct order to show how the name is spelled. Repeat and see how many more times you can find your child's name.

Friday

I Spy

Find a page in the newspaper with several pictures or drawings. Play "I Spy" by giving clues about a picture. For example, "I spy something with wheels. What is it?" Let your child give you a clue about a different picture.

Saturday

O-T Game

Cut out the letters **o** and **t** from the headlines. Then cut out the letters **h**, **l**, **c** and **p**. Show your child how you can spell the words **hot**, **lot**, **cot** and **pot** simply by changing the first letter in front of the **ot**.

Domingo

Identificacación de Letras

Junto con su hijo/a, busque en el periódico imágenes de cosas que empiecen con la letra **H** de **hole**.

Lunes

Juego de Matemáticas

Apunte al número **8** en su periódico. Pídale a su hijo/a que diga el número y que, si el mismo es lo suficientemente grande, lo trace en el papel.

Martes

Juego de parejas

Junto a su hijo/a, encuentre y marque con un círculo seis letras **H** mayúsculas de una página del periódico. En la misma página del periódico, encuentre y marque con un círculo seis letras **h** minúsculas. Pídale a su hijo/a que conecte los "puntos" para formar un dibujo divertido.

Miércoles

La H es para "Hand"

Pídale a su hijo/a que marque el contorno de su mano en una hoja del periódico. Luego, pídale que marque con un círculo todas las letras **H** que se encuentran dentro de la mano.

Jueves

Mi nombre, punto a punto

Pídale a su hijo/a que, en una página del periódico, marque con círculos las letras que forman su nombre. Conecte con líneas y en el orden correcto las letras, de manera que se vea como se escribe el nombre. Repítalo para observar cuántas veces usted puede encontrar el nombre de su hijo/a.

Viernes

Yo espío

Encuentra una página del periódico que tenga muchas fotografías o dibujos. Juegue al "yo espío" con su hijo/a y déle pistas sobre la imagen seleccionada. Por ejemplo: "yo espío… algo con ruedas. ¿Qué es?" Deje que él/ella le de a usted pistas sobre otra imagen.

Sábado

Juego O-T

Recorte de los titulares las letras o y t. Luego recorte las letras **h**, **l**, **c** y **p**. Muéstrele a su hijo/a como se deletrean las palabras "**hot**", "**lot**", "**cot**" y "**pot**" mediante el simple cambio de la primera letra.

Literacy Champions

The John and Elaine Andrist Charitable Trust

The John and Elaine Andrist Charitable Trust was established in memory of the longtime Crosby, ND residents, John and Elaine Andrist. John ran the local newspaper, The Journal, and in retirement spent more than 20 years as a North Dakota state senator. Elaine kept the home fires burning with their five children. Together they developed a passion for philanthropy.
