What is in averaged 80 and 110 bushels per acre.

Flax is holding steady with a possible 20-35 bushels per acre. Foul adds that with few new varieties, the crop holds fairly steady in yield each year. Acres planted are low in the county.

Corra will be three weeks early, with chopping starting in about a week and a half, said Foul. The corn to be combined should be ready about mid to late September in contrast to the October and later usual harvest.

Corra yields, depending upon where it rained or rains, may push 140-150 bushels per acre.

Attorney’s letter questions candidate’s credibility

Brad Nygaard

Attorney’s letter questions candidate’s credibility

By Brad Nygaard

In a letter filed by Dakota County Sheriff’s Attorney Lynn Jorgensen and Minnesota Attorney General Mark Johnson off record in the county courthouse, the letter was included in the public record. The letter questions the credibility of the sheriff’s candidate’s campaign.

The letter was written by attorney at law, Brad Nygaard, who has been a practicing attorney for over 30 years. Nygaard has also served on the board of directors for several community organizations.

In his letter, Nygaard expresses concern about the sheriff’s campaign and the conduct of the sheriff’s candidates. Nygaard states that the sheriff’s candidates have been making false statements about their qualifications and experiences.

Nygaard also raises concerns about the sheriff’s candidates’ financial disclosure and their handling of public funds.

Nygaard concludes his letter by stating that the sheriff’s candidates have not met the standards of integrity and ethics expected of public officials.

The letter has been filed with the Dakota County Auditor’s Office and is available for public viewing.
